**Pueblo, CO 81008**

## **Turn Around Times and Pricing Disclaimer**

Free Fall Testing Labs is certified in Potency Testing by the Colorado Department of Public Health and Environment.

We gladly accept samples for all testing, but tests, other than potency testing, will be sent to another certified lab for testing. Due to the nature of sending out samples for testing to other labs, we cannot guarantee turn around times. In addition, tests, other than potency testing, will be at the current market price of the lab performing the testing. We will not charge additional fees to transport your samples to another lab.

Our turn around times for potency testing are as follows:

Any sample dropped off on Monday through Thursday will have results back within 24 hours.

Samples dropped off on Friday, Saturday, or Sunday, results will be available after the weekend, on Monday.

Any sample that is accepted for expedited services will have results available within 24 hours.

If a sample is dropped off after normal working hours or on an observed Federal Holiday, results will be available 24 hours after the beginning of the next, normal working day.
